Profile

Driven BSc in Applied Data Science undergraduate skilled in Python, SQL, Power BI, and AI. Experienced in data extraction, cleaning, analysis, and visualization, with hands on application of machine learning and statistical techniques. Completed projects in fraud detection, predictive analytics, and recommendation systems, and seeking a Data Science Internship to contribute to data driven decision making.

Education

General Sir John Kotelawala Defence University 2024 - 2027
Bachelor of Science in Applied Data Science Communication Ratmalana, Sri Lanka

- **Relevant Coursework:**
- Fundamentals of Mathematics and Statistics, Data Mining, Applied Machine Learning, Artificial Intelligence
- R and Python Programming, SQL, Advanced SQL with Cloud Databases, Data Visualization
- Business Economics, Accounting and Finance, Operations Management, Organizational Behavior
- Research Methods and Presentations, Effective Writing and Presentation Skills, Citizen Science and Communication

Visakha Vidyalaya – Colombo 05 2009 - 2022/23
College Education

- Completed G.C.E. Advanced Level in Commerce stream

Skills Summary

Programming & Data: Python (Pandas, NumPy, Scikit-learn), SQL (SSMS, PostgreSQL), R

Data Science & Analytics: Machine Learning, Predictive Modeling, Statistical Analysis

Business Intelligence: Power BI, Data Visualization, Dashboard Development

Core Skills: Analytical Thinking, Problem Solving, Data Interpretation, Critical Thinking, Business Understanding, Communication, Teamwork, Attention to Detail, Decision Making, Time Management

Projects

Credit Card Fraud Detection System for Sri Lanka | *Machine Learning, Python* | 2025

- Conducted machine learning research on credit card fraud detection in Sri Lanka using classification algorithms.
- Evaluated model performance using accuracy, precision, recall, F1-score, and confusion matrices to improve fraud identification.

Exploring Agricultural Production Trends in Sri Lanka | *Logistic Regression, Association Rule Mining* | 2025

- Implemented Logistic Regression and Association Rule Mining techniques on FAOSTAT datasets to uncover key agricultural production patterns.

Unveiling Road Safety Insights | *Classification, Clustering, Data Analysis* | 2024

- Performed classification and clustering analysis to predict accident severity and generate actionable road safety insights.

DengueGuard SL: Dengue Risk Early Warning System | *Predictive Analytics, Web Based System* | 2025

- Developed a web based early warning system to predict district level dengue risk in Sri Lanka using a design science approach.
- Designed a heuristic risk scoring model integrating environmental and geographical data such as rainfall, temperature, and humidity.
- Provided real time risk visualization and proactive public health insights to support outbreak prevention efforts.

Movie Recommendation System | *Flask, Scikit-learn, Pandas, JavaScript* | 2026

- This project is a movie recommendation web app that suggests similar movies based on genres using content based filtering.

- It uses TF-IDF and cosine similarity, with a smart search feature for handling typos. Built using Flask and a simple frontend, it provides fast and user friendly recommendations.

Skill Network Analysis | *Python, NetworkX, Matplotlib* | 2026

- Developed a large scale skill dependency network using 20,000+ skills, leveraging Jaccard similarity to uncover relationships in labor market data.
- Analyzed network structure using centrality measures to identify high impact gateway and monopoly skills, supported by visual analytics and network graphs.

UK Sponsorship Trends Dashboard | *SQL Server, Power BI, DAX* | 2025

- Built an interactive dashboard to analyze UK Study and Work visa sponsorship trends using historical immigration data.
- Performed data cleaning, transformation, and warehouse modeling using SQL Server with fact and dimension tables.
- Developed Power BI visuals and DAX measures to track applications by year, nationality, and visa category.

Policy AI Adapter | *Streamlit, Gen AI, Python, PyPDF2* | 2026

- Built an AI powered web app that summarizes complex policy documents into simple insights using Gemini AI.
- It also adapts the content for different audiences like the public, executives, and employees to improve understanding and decision making.

AI Resume Analyzer | *React, Tailwind CSS, Puter.js* | 2026

- Developed a responsive AI powered web application using React and Tailwind CSS to analyze resume content.
- Integrated Puter.js to leverage cloud based computing capabilities for efficient file handling and real time feedback generation.

AI Problem Decomposer Agent | *Python, Streamlit, Groq API* | 2026

- Built an autonomous AI agent to break complex problems into actionable steps using LLMs.
- Implemented self critique, memory, and plan improvement through reasoning loops.
- Developed an interactive Streamlit dashboard with reports and history tracking.

Certificates and Courses

- Certificate in Digital Marketing (CDM) – Sri Lanka Institute of Marketing (2023)
- AI-Powered Shopping ads Certification - Google Skillshop (2025)
- Google Analytics Certification - Google Skillshop (2025)
- AI for Marketing Course - Semrush Academy (2025)
- Data Analyst Certification – oneroadmap (2026)
- Introduction to Machine Learning Concepts Module – Microsoft Learn (2026)
- Introduction to Generative AI and Agents module – Microsoft Learn (2026)
- Overview Of AI Concepts Module – Microsoft Learn (2026)

Club Activities

Member of the Membership Circle | *DataInspire KDU* - 2025

- Facilitating member engagement and community building initiatives for the Data Science society at General Sir John Kotelawala Defence University.

Sports

Swimming | *Vice Captain* - 2025

- * Appointed as **Vice Captain** (2025) of the university team, leading training schedules and motivating a squad of athletes.
- * Awarded **National Colors** (2025) and **KDU Colors** (2024) in recognition of consistent excellence in competitive swimming.

Water Polo | *University Colors* 2025

- * Awarded **KDU Colors** for Water Polo, demonstrating versatility, teamwork, and athletic endurance.
